# What We Do

**Itqan for Electrical and Mechanical Supplies is an Egyptian leading company in the Pneumatic , Valves , Instrumentation , and industrial automation field, it was established in 2005 & over the years our company had the ability to take control over a wide share in the market alongside being highly reputable at our customers.**

**Some of the fundamental mechanisms that helped us achieve our goal is taking care of our customers by considering them our partners, fulfilling their needs and transforming their vision into reality.**

**Working team and to be permanently dependent on continuous Modernization in technological solutions offered by our company in line with global changes associated with automation field.**

## History

**We are an Experts Engineers; we started our work in the valves, process instruments and Pneumatic field in the 1997,  
We assist Itqan for Electrical and mechanical supplies to serve in the industrial sector since 2005.**

**We are from the first companies in Egypt that specialist in the Process control systems, Valves, Control valves and Pneumatic systems and Automation systems.**

**Over 15 years of continuous and hard work we have been able to form Four branches in the largest industrial cities in Egypt to serve our customers as soon as possible, as a network of distributors and dealers exceed more than 300 distributors and traders and we support them with training and good prices and high level technical support to cover all sectors of industry in Egypt .**

**Since the first year of the establishment of Itqan Company we contribute with our major clients in the major projects in the field of drinking water plants, chemical industries, cement industry, building materials and in the field of food and pharmaceutical factories. We also sold and solved the technical problems of the household appliances industry and We take good share of sales in the field of petroleum**

**We started from the first moment of establishing our company in taking the agencies of the largest European companies to provide the best solutions and products to our customers and to support all sectors of industry in Egypt.**

## OUR STRONG POINTS

Wide range of products in stock. Quickness in answering the clients' requests. Competitive prices always in line with the market.

### Our goal

We aim to be one of the largest integrated companies serving the largest industry sectors in Egypt in the 2025 year and the Middle East and Africa in 2030

### Our Vision

To become a complete solution for our customers in our industry and become the first choice from the Egyptian industrial Market and From the Middle East and Africa customers.

### Our Mission

Our company's vision through our current and former customers is characterized into three main categories: quality, innovation in solutions and most importantly credibility, so that we can be a role model for rivals companies.

### Our Values

Quality

Innovation

Reliability
